NOTE:

City Crew Foreman is required to mark the street for removal for water & sewer connections.

Please make arrangements at City Hall when paying connections fees so time delays can be avoided.

CITY CODE OF IDA GROVE, IOWA

TAPPING FEES FOR WATER SERVICE

6-1.0105 PERMIT. Before any person shall make a connection with the public water system, a written permit must be obtained from the city manager. The application for the permit shall be filed with the city manager on blanks furnished by him/her. The application shall include a legal description of the property, the name of the property owner, the name and address of the person who will do the work, and the general uses of the water. No different or additional uses will be allowed except by written permission of the city manager. The city manager shall issue the permit, bearing his signature and stating the time of issuance, if the proposed work meets all the requirements of this article and if all fees required under this article have been paid. Work under any permit must be begun within six (6) months after it is issued. The city manager may at any time revoke the permit for any violation of this article and require that the work be stopped.

(Code of Iowa, 1975, Sec. 372.13 (4))

6-1.0106 SERVICE INSTALLATION FEE. Before any permit is issued the person who makes the application shall pay to the clerk the following installation fee:

1. 3/4" Service. The fee for the installation of a 3/4 inch service line shall be \$300.00. The fee shall include all materials and work incident thereto, to install the service line from the main to a point approximately 5.5 feet from the property line, at which point the city will set a curb stop and box. The above stipulated fee shall also include the furnishing of a 3/4 inch meter with connections and the furnishing and installing of a remote register. The city shall assume ownership and maintenance of the above described service line and its appurtenances, as well as the water meter and remote register. It is the responsibility of the property owner to install and maintain that portion of the service line commencing at the outlet of the curb stop and terminating at the meter.

2. 1" Service. The fee for the installation of a one (1) inch service line shall be \$350.00. This fee shall include tapping the main, furnishing and installing the corporation cock, and furnishing the curb stop and box. The above fee shall also include the furnishing of a one (1") inch meter with connections and furnishing and installing of a remote register for a one (1") inch meter. It shall be the responsibility of the property owner to furnish and install the service pipe from the main to the meter. The City shall assume ownership and maintenance of the service line from the main to and including the curb stop, said curb stop to be located at a point approximately 5.5 feet from the property line. The city shall also assume ownership and maintenance of the meter and the remote register. The property owner shall retain ownership and assume maintenance of that portion of the service line commencing at the outlet of the curb stop and terminating at the meter.

3. Larger Services. The fee for the installation of a 1 1/2" service line shall be \$450.00 and the fee for the installation of a 2" service line shall be \$500.00. The fee shall include tapping the main, furnishing and installing the corporation cock or tapping "T" and valve, whichever is suitable and required, and furnishing the curb stop and box. The customer shall purchase and install an approved meter with connections and remote register. It shall be the responsibility of the property owner to furnish and install the service pipe from the main to the meter. The city shall assume ownership and maintenance of the service line from the main to and including the curb stop, said curb stop to be located at a point approximately 5.5 feet from the property line. The city shall also assume ownership and maintenance of the meter and remote register. The property owner shall retain ownership and assume maintenance of that portion of the service line commencing at the outlet of the curb stop and terminating at the meter.

4. Excess Costs. If materials and equipment are utilized by the city, not contemplated or specified in subsections 1, 2 or 3 hereof, in the installation or construction of any waterworks system or part thereof, then the city shall assess a fee or an additional fee to the customer or customers benefited or to be benefited thereby, computed at the actual cost to the city for such materials and equipment plus ten (10%) percent of such actual costs.
